About Drug Court

Drug Court is an innovative alternative to incarceration for individuals charged with a drug-related offense. The program is open to non-violent men and women who have had a prior conviction and show a desire to enter treatment.

How Drug Court Works

This court is a post-plea Drug Court. Participants charged with felony and misdemeanor crimes enter a plea of guilty; this plea is held in abeyance until successful completion of the program. Upon graduation from Drug Court, the guilty plea is withdrawn and the criminal charges are then dismissed.

At the discretion of the prosecutor's office, participants can also enter a guilty plea with Drug Court as a probation condition. Upon graduation, the criminal charges are reduced.

Guidelines for Success

All Scheduled Drug Court Appearances Are Mandatory

If you have a question about your next court date please contact your case manager.

If you fail to appear in court a bench warrant will be issued. The Judge has discretion to remove anyone from the program who repeatedly fails to appear.

It Is Important That All Laws Be Upheld

Any client who receives new charges while in the program will have the new charges reviewed by the Drug Court team and a decision will be made as to what action will be taken.

Depending on the severity of the offense an Order to Show Cause hearing could be scheduled. You may be removed from the program and sentenced, or allowed to remain and participate in the program.

It is mandatory that any contact with law enforcement be reported to your case manager as soon as possible.

Medication Assisted Treatment (MAT)

The use of medication in combination with treatment services is an option to support your recovery. You can ask your treatment provider for more information.

Prescription Medication In Drug Court

All prescription medication must be reported to your case manager. If you receive a new prescription, verification must be given to your case manager. This information will be provided to the Drug Court team for review. A prescription disclosure form must be signed by a medical professional before you are prescribed any medication. Keep this form with you at all times.

You are required to complete **40 hours** of volunteer service to successfully complete the Drug Court program.

Volunteer Service Expectations

- Verification of all volunteer service must be submitted to your case manager.
- Volunteer service that cannot be verified will not be accepted.
- Volunteer service turned in more than 60 days after the work has been completed may not be accepted.
- Any volunteer service, as the result of a sanction, will not count toward the required 40 hours for graduation.
- Any sanctioned service hours must be completed and submitted to your case manager prior to your next scheduled court date.
- Volunteer service hours must be submitted on community service site letterhead and include the name of a contact person and contact information.

Drug Testing

Drug testing is an important part of the Drug Court Program. Urine samples are tested for drugs and alcohol. You will be randomly tested through your treatment provider. Your drug testing will be monitored through your case manager.

The following information will assist you during the testing process:

Drug & Alcohol Testing

- Every participant will be required to read and sign a Criminal Justice Services Drug and Alcohol Testing Agreement that explains your responsibility in providing valid urine samples, in the event that you are required to submit a sample during court.

Testing Issues

- For every drug test performed, an alteration/tampering test is also conducted. If the lab determines alteration/tampering occurred, the sample will be considered invalid.
- Anyone caught tampering with a drug test will be reported to the court and an Order to Show Cause Hearing may be scheduled. This may result in removal from the program.

Drug Testing

Testing Issues (continued)

- You should eat and drink as you normally would on your test day.
- Drinking large amounts of fluids prior to testing will result in a diluted sample.
- Do not consume any foods containing poppy seeds.
- Report all prescription medication and provide documentation to your case manager prior to testing.

Contesting Positive Results

- If you disagree with the result of your drug test, you may contest the result and have the sample sent for a confirmation. The confirmation process will be at your own expense.
- If you desire to contest a sample, contact your case manager to help facilitate the process.

Missed Tests

- Every missed drug test will be considered a positive (failed) test. Sanctions will apply unless you have been excused by your case manager.
- If you miss a drug test, you must contact your case manager as soon as possible to report the missed test. You will be added to the next available Drug Court calendar to report to the Judge.
- If you miss a drug test in Phase Four, your graduation date may be extended.

Drug Court Phases

Drug Court Phases

Phase One: Pre-Treatment

This phase begins at legal orientation. Orientation typically occurs at the first Drug Court appearance.

Legal Orientation

- Meet with the legal defender/attorney to review facts and legal issues.
- Enter a plea at any time during Phase One after the assessment process is completed.

Treatment Orientation

- Complete a Substance Abuse and Mental Health Assessment.
- Complete a Risk/Needs Assessment.
- Complete an intake with a case manager at Criminal Justice Services to develop a case plan.
- Complete Drug Court Orientation with Criminal Justice Services.
- Submit to random drug tests as required through your treatment provider.
- Attend court every week.

Phase Two: Stabilization

This phase takes anywhere from 3 to 6 months to complete and includes Substance Abuse Treatment and Psychoeducational classes.

Your treatment will be completed with a treatment program in the community depending on clinical recommendations.

If there is a high risk of relapse, difficulty maintaining sobriety, serious withdrawal complications, medical or emotional complications, or resistance to treatment, you may be referred to a more intensive level of treatment such as; detoxification, day treatment, intensive outpatient or residential treatment.

Phase Two Requirements

- Attend individual and/or group therapy as recommended by your treatment provider each week.
- Meet with your case manager on a regular basis as determined by your case plan.
- Attend court every two weeks.
- Be substance free for at least 60 days.
- Complete 10 of the required 40 hours of volunteer service.
- Have a GED/high school diploma OR start enrollment in an educational program working towards GED/high school diploma.
- Be employed OR actively seeking employment/vocational rehabilitation services.
- Create a budget plan with your case manager and begin making payments toward fines and/or restitution if applicable.

Drug Court Phases

Drug Court Phases

Phase Three: Relapse Prevention

This phase takes anywhere from 4 to 8 months to complete.

Phase Three Requirements

- Attend individual and/or group therapy as recommended by your treatment provider each week.
- Meet with your case manager on a regular basis as determined in your case plan.
- Attend court every 3 weeks.
- Be substance free for at least 90 days.
- Complete 15 hours of the required 40 hours of volunteer service.
- Demonstrate stable employment for at least 2 months OR be enrolled as a full-time student in school or training program.
- Demonstrate compliance with a payment plan regarding fines and/or restitution if applicable.
- Attend a Drug Court Graduation.
- Set a graduation date and complete a graduation application with the assistance of your case manager.

Phase Four: Compliance

During this final phase you will continue to work towards long-term recovery.

Phase Four Requirements

- Attend individual and/or group therapy as recommended by your treatment provider each week.
- Meet with your case manager on a regular basis as determined in your case plan.
- Attend court every 4 weeks.
- Be substance free for at least 180 days.
(A missed, dilute or positive drug test may result in an extension of the program)
- Complete the remaining 15 hours of the required 40 hours of volunteer service.
- Demonstrate stable employment OR be enrolled as a full-time student or in a training program for at least 4 months.
- Demonstrate compliance with a payment plan regarding fine and/or restitution if applicable.
- Prepare for and attend the Graduation Review Panel.
